EclipseCon 2009 Update

Bjorn Freeman-Benson
December 2, 2008

Like Last Year, Only Better

- Operationally, EclipseCon 2009 will be similar to EclipseCon 2008: same great location, same great wireless, same great exhibit hall, same great people networking opportunities, …
- …but it will also be better: more "lounge" areas for F2F, more integration of sponsorship and free (i.e., less "us and them" vis a vis Eclipse is about making money)

- The best thing about EclipseCon 2009 is that the program committee is working very hard to recruit and cajole the best program ever. The quality of submissions is very high and the committee is working hard to cajole the speakers into distilling out the best of best.

Great Talks

- Keynotes: two speakers for the price of one!

- Main Stage: the best of the best from the program committee
