Modeling Working Group Update for Q4/ 2010

Modeling Platform Working Group

- Good progress on the requirements and definition of an Eclipse Modeling Platform.

- UBS, Swift, Alcatel-Lucent and Ericsson continue to lead the effort.

    - Itemis, Geensys and Zeiligsoft active contributors

- Four end-user companies have sponsored the creation of a gap analysis and project plan

    - Gap Analysis completed end of September

    - Project plan completed end of October

Modeling Platform Working Group

- Eclipse Enterprise Modeling Day in Zurich
  - Hosted by UBS
  - Focused on recruiting new participants
  - 120 registrants from 50 different companies
- Face to Face Working Group Meeting on Nov 5
  - Finalize project plan so end user companies can decide upon funding implementation
  - Formally create the Industry Working Group which will require companies to join the Foundation
