Eclipse Themes & Priorities

Anurag Gupta

Intel Corporation

February 28, 2004

Input

- **Sources**
  - Seven Strategic developers and consumers
  - Three Project Management Committees (PMCs)
    - 10+ projects
  - 30+ member companies
    - Meeting in Fort Worth, TX
    - 8 discussion topics selected by member companies
    - Number of votes determined priority
- **Form**
  - Prioritized list of requirements
  - Varying granularity

Processing

- **Synthesized inputs into themes**

- **Add-in provider input weighted proportional to representation at Eclipse board of directors**

- **Relentless refinement and re-factoring through active participation of Requirements Council**

Output

- **Strategic member companies, Eclipse projects, and general member companies on the same page**
- **Folks involved with Eclipse for 3-4 years agreed that the themes "made sense"**
- **Themes guide architecture, planning, resource allocation**
  - **Scaling Up theme used to focus on performance improvement**
- **Newsgroup discussion**

Themes & Priorities

- **Based on feedback from strategic members, Project Management Committees, 30 Eclipse members**
  - **Scaling Up**
  - **Enterprise Ready**
  - **Design for Extensibility: Be a Better Platform**
  - **Embedded Development**
  - **Build Out Rich Client Platform**
  - **Simple to Use**
  - **Enable Consistent Multi-language Support**
  - **Appeals to the Broader Community**
