Dallas, Texas

August 3, 2004

Agenda

- Introduction
- EMO Update
- Development Councils
- Eclipse Future Projects

Eclipse Mission

- Eclipse is an open source community focused on developing a **universal platform** of frameworks and exemplary tools that make it easy and cost-effective to build and deploy software in today's connected and unconnected world.
- Eclipse is a consortium of major software vendors, solution providers, corporations, educational and research institutions and individuals working together to create an **eco-system** that enhances, promotes and cultivates the Eclipse open platform with complementary products, services and capabilities.

Eclipse Is A Growing Innovative Community

- 9 Strategic Members
 - Actuate joined Board of Director in August
- 59 Add-In Provider Members; 9 Associate Members
 - 17 new members in last 6 months
- 3 New Top Level Projects
 - 6 new technology projects

New projects and New Members are proposed on a weekly basis

EMO Short Term Priorities

- Migrate eclipse.org web site to Eclipse Foundation
- Implement development processes
- Assume responsibility for intellectual property policy implementation
- EclipseCon 2005

Eclipse.org Migration

- Eclipse.org has been managed by IBM, at an IBM facility. Goal is to move it to an Eclipse Foundation facility and managed by the EMO.
- Eclipse.org will be migrated to an ISP located in Ottawa
- Schedule
 - October 16 – Download server moved **Successfully completed**
 - November 12 – Remaining content
- Next Steps
 - Install new donated equipment
 - Have approached IBM, Intel and HP for hardware
 - Have approached RedHat and Novell for operating systems
 - Re-architect site with assistance of Intel services
 - Establish an open source project to manage ongoing web site evolution

CPL to EPL Conversion: Key Issues

- Maintaining dual licensed streams
 - Provide both CPL and EPL licensed streams during transition period
 - Smaller projects can “opt out” with EMO approval
 - Planning to support separate downloads to track selection of CPL vs. EPL
- Handling of license notices in source files
 - In EPL transition streams, source files may state CPL
 - All other legal notices will state EPL
 - Strategic developers contacted and approved this plan
- Handling of single license contributions
 - Must be approved by EMO (including EPL only contributions)

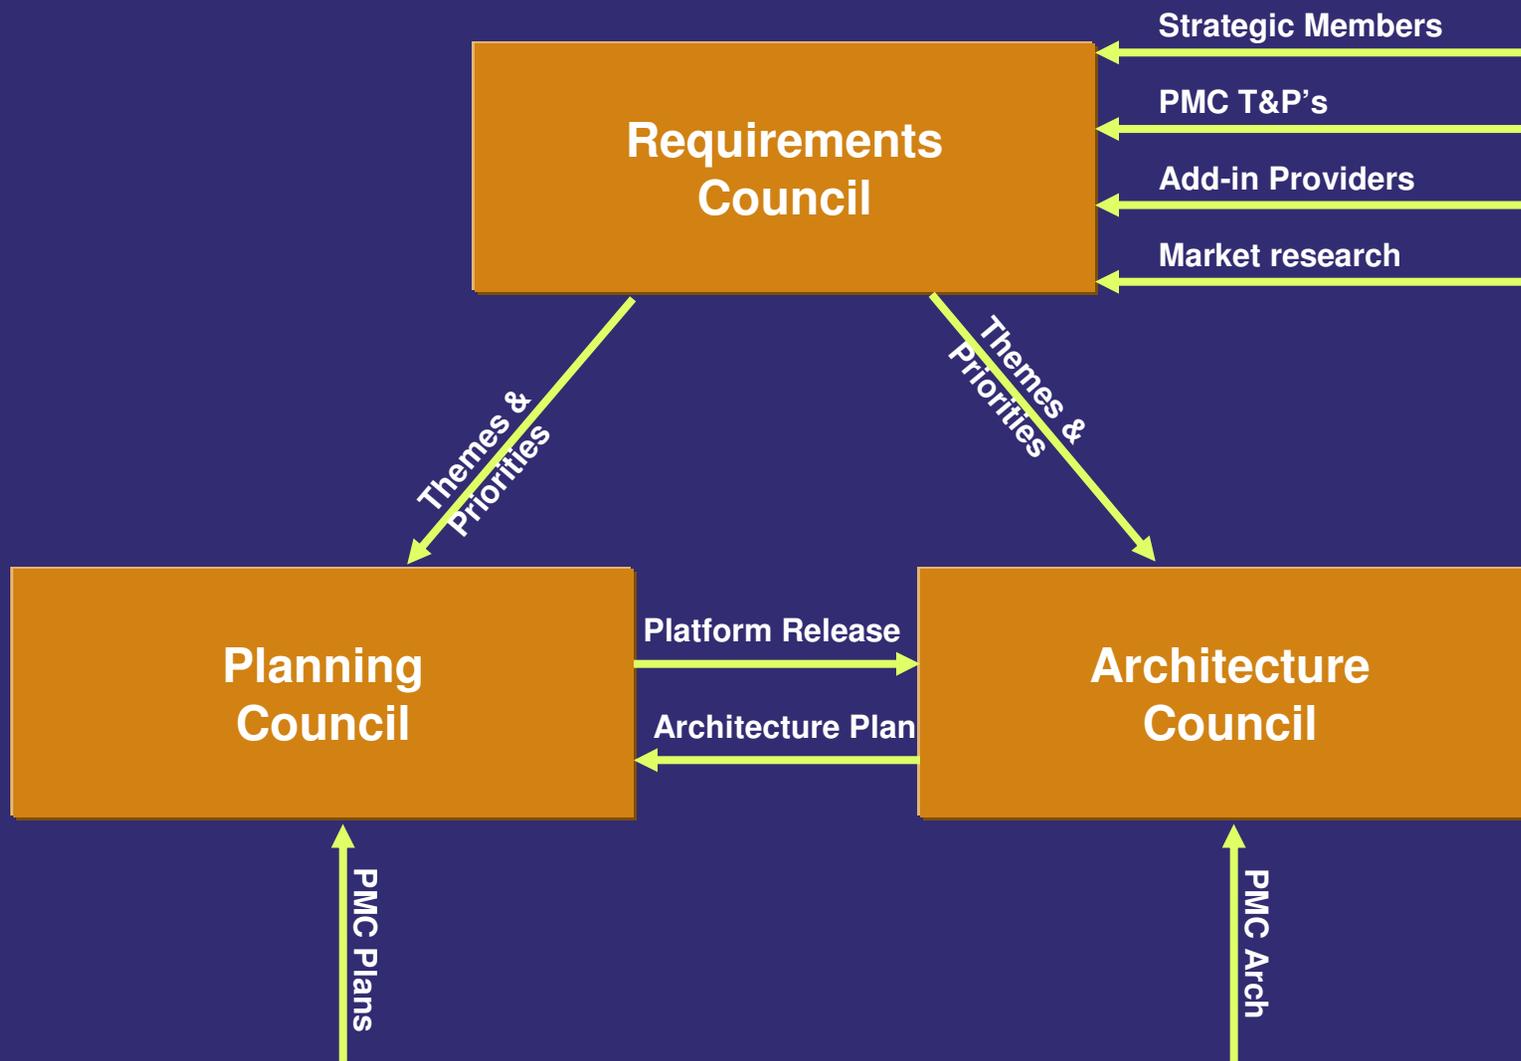

CPL to EPL Conversion: Timeline

- Approval of transition plan (completed August 18, 2004)
- Creation of contributor database (completed September 15, 2004)
- Initial communication to contributors and start of transition period (ASAP)
- Transition period ends on 12/31/2004
 - All new development under EPL
 - All existing projects offering both CPL and EPL streams
- License Switchover (1H2005)
 - Dependent upon product release cycles
