

GMP/GMF-Notation/HeliosReview

From Eclipsepedia

< GMP | GMF-Notation

This page provides the required *docuware* for the **GMF Notation 1.4.0 Release Review**, as part of the upcoming **Helios Simultaneous Release**.

Contents

- 1 Overview
- 2 Features
 - 2.1 New in this release
 - 2.2 Accordance with project plan themes and priorities
- 3 Non-Code Aspects
- 4 APIs
- 5 Architecture
- 6 Tool Usability
- 7 End-of-Life
- 8 Bugzilla
- 9 Standards
- 10 UI Usability
- 11 Schedule
- 12 Communities
- 13 Committer Changes
- 14 IP Issues
- 15 Project Plan

Overview

The GMF Notation Project provides a standard EMF notational meta model. The notational meta model is a standard means for persisting diagram information separately from the domain model. It can also be used as a basis for diagram interchange and was based on the principles in the OMG Diagram Interchange Specification (<http://www.omg.org/cgi-bin/doc?formal/06-04-04>)

Features

New in this release

The only significant event with the Helios release was that the GMF project was restructured under the new Graphical Modeling Project (GMP). GMP includes GMF Notation, as well as GMF Runtime, GMF Tooling and Graphiti.

Otherwise, GMF Notation is undergoing it's participation in the Eclipse Simultaneous release as it has for each and every release. This is the fifth yearly June release of GMF Notation.

Accordance with project plan themes and priorities

See the GMF Notation project plan at <http://www.eclipse.org/projects/project-plan.php?projectid=modeling.gmp.gmf-notation>

Non-Code Aspects

- Documentation hosted at [GMF Documentation | http://wiki.eclipse.org/GMF_Documentation]

APIs

APIs have not changed this release.

- The project lead certifies that the requirements for Eclipse Quality APIs have been met for this release.
- Metamodel definitions and corresponding implementations are considered APIs.
- API Tooling has been employed.

Architecture

- No change.

Tool Usability

- Tools haven't changed.

End-of-Life

Nothing has been deprecated.

Bugzilla

Bugzilla snapshot for Helios is included with the GMF Runtime snapshot.

Standards

Not applicable.

UI Usability

Nothing has changed.

Schedule

GMF Notation is a “+1” component in the simultaneous release.

| | | |
|--------|------------|----------------|
| M1 | 08/17/2009 | |
| M2 | 09/28/2009 | |
| M3 | 11/09/2009 | |
| M4 | 12/14/2009 | |
| M5 | 02/01/2010 | |
| M6 | 03/15/2010 | API freeze |
| M7 | 05/03/2010 | Feature Freeze |
| RC1 | 05/17/2010 | |
| RC2 | 05/24/2010 | |
| RC3 | 05/31/2010 | |
| RC4 | 06/07/2010 | |
| RC5 | 06/14/2010 | |
| Helios | 06/23/2010 | |

Communities

- Interaction in Bugzilla
- Activity on the GMF newsgroup
- Collaboration with other projects at Eclipse
- Attendance at EclipseCon 2010

Committer Changes

Anthony Hunter, Lidija Grahek and Alex Boyko continue to be the committers on GMF Notation.

IP Issues

The GMF Notation component leadership verifies that:

- the about files and use licenses are in place as per the Guidelines to Legal Documentation.
- all contributions (code, documentation, images, etc) have been committed by individuals who are either Members of the Foundation, or have signed the appropriate Committer Agreement. In either case, these are individuals who have signed, and are abiding by, the Eclipse IP Policy.
- all significant contributions have been reviewed by the Foundation's legal staff.
- all non-Committer code contributions, including third-party libraries, have been documented in the release and reviewed by the Foundation's legal staff.
- all Contribution Questionnaires have been completed.
- the "provider" field of each plug-in is set to "Eclipse Modeling Project".
- the "copyright" field of each feature is set to the copyright owner (the Eclipse Foundation is rarely the copyright owner).
- any third-party logos or trademarks included in the distribution (icons, help file logos, etc) have been licensed under the EPL.
- any fonts or similar third-party images included in the distribution (e.g. in PDF or EPS files) have been licensed under the EPL.

The GMF Notation Project IP log is located at http://www.eclipse.org/projects/ip_log.php?projectid=modeling.gmp.gmf-notation

Project Plan

The current project plan is available from <http://www.eclipse.org/projects/project-plan.php?projectid=modeling.gmp.gmf-notation>

Draft development plan for next release is not yet available.
