Marketplace Update
- JSON schema has been shared with vendors
  - It was proposed that we (Temurin) get the JSON metadata published now as an example for other vendors.
- https://github.com/adoptium/website-v2/issues/202
  - https://www.eclipse.org/legal/documents/eclipse-foundation-quality-verification-suite-license.php is still returning a 404.
- ACTION: Shelley to arrange the implementation workshop
- Input from the Eclipse Foundation on the Marketplace governance documents is here.

Website V2 Update (staging site)
- Latest homepage was demonstrated
  https://deploy-preview-180--eclipsefdn-adoptium-v2.netlify.app/
  - It was discussed that we could roll out the website redesign before the marketplace to sanity check first.

Adoptium Secure Software Development Framework (#120)
- Looking for input on this from other steering committee members.
