- Thabang Mashologu
- Jacob Harris
- Sharon Corbett
- Paul Buck

Minutes

Approval of Minutes and Review of Actions from April 22, 2021

- Approved

State of first Temurin Release

- Adoptium [project milestone/board](#) has been created to track progress.
- Access to TCK is blocked and still awaiting Oracle signature on agreement.
- Gil mentioned that Azul would be interested in joining the compliance group and contributing to TCK work.
- Discussion of version string to be shown by Adoptium's Eclipse Temurin releases.
 - Tracking <https://github.com/adoptium/adoptium/issues/8>
- Discussion about whether the Public Relations push be tied to the April-level code build (expected May?) or the next scheduled July release.
 - Steering committee to define a timeline, giving a few weeks notice to the Eclipse PR contact to get material ready.

Tweets from @adoptium

- Martijn Verburg Do we need a sub committee or proposal for twitter guidelines?
 - Example was given of promoting Microsoft blog that was unexpected by the SC and Microsoft both.
- Thabang stated that any material related to Adoptium will be promoted by EF. The Steering Committee asked that it be relevant, and that the SC are in the best position to know that at present.

Website design

- Skipping this week as Hendrik is away.

Adoptium WG 2021 Program Plan Vote Results (link)

- Tim votes in the thread. Just waiting on New Relic and Hendrik.
