Eclipse Automotive IWG Telco 13.06.2012 WP5

Oscar Slotosch, Validas

Mario Driussi, Das Virtuelle Fahrzeug Forschungsgesellschaft mbH

Minutes of Meeting

· Oscar Slotosch / Validas

Discussion about business models for Tool Qualification. "Pay Per Qualification"

- The owner of a qualification kit gets money when the kit is applied
- Qualification kits are available in a "qualification store" similar AppStores or the Eclipse Market Place
- Application would include the application of the kit's from required plug-ins
- Some % from the money is collected for infrastructure topics

See: http://wiki.eclipse.org/images/e/ed/PayPerQualification.pdf

Outcome:
- Discussion with the AUTO IWG and Eclipse Foundation is necessary (Ralph Müller, next F2F Meeting).
- Polarsys approach difficult to implement.

Polarsys and OPEES: Coordination with WP3 (Process TQL) and WP4 (Implementation) ongoing (Validas)

Demonstrator Status Report:
- Kickoff (BMW-CarIT, 2012 1st of June) with
- initial agreement on proposed goals
  http://wiki.eclipse.org/images/0/08/Demonstrator.pdf
- plans to set up a git server for demonstrator

· Mario Driussi / virtual vehicle

- Proposal (Use Case) to contribute the Crystal Project (Artemis) to work out a Tool Classification Kit
- Approval from the automotive partners necessary to contribute the Use Case (send out today)

Activities until the next meeting

- Decision contribution on the demonstrator -> All until next meeting
- Review the Demonstrator.pdf -> all
  (http://wiki.eclipse.org/images/0/08/Demonstrator.pdf)
- Review the PayPerQualification.pdf
  (http://wiki.eclipse.org/images/e/ed/PayPerQualification.pdf)
- WP5 Review of Tool Development Plan (ongoing) -> all
