Minutes for August 20th, 2024

Regular Steering Committee Update (Thomas)

- Funded Dev Efforts: “Hello World” on Linux/GTK4 done; new contributors in JDT for “good first issues”
- Community mentors started working on their own backlog, e.g. committer journey. Review with the Steering Committee mid-September.
- github.com/eclipse-id org is now under EF control. Empty draft for now – to be used as entry point for high-level issues.
- Coordination of marking for Eclipse 2024-09 release (site, blogpost, video, ...).
- New members pipeline: Preparation of presentations in some member prospect companies; additional new prospects extracted from “top contributors” list
- Updated pitch deck continuously being improved.
- Waiting for feedback on loongarch support from requesting company.

IDE WG Charter Update - Three Main Sentences

Initial feedback incorporated in draft.

Additional feedback discussed regarding JDT and its importance.

Proposal by Martin: Before updating the website, share draft with wider community (non-working-group-members) in order to provide feedback.

Unanimously agreed, will use GitHub discussion to share the draft and get feedback.

Discussion on SIGs & IG

Thomas has prepared drafts for Java and RCP SIGs as well as a cross-wg tooling modernization IG.

There is already interest in them by some (non-working-group member) companies.

Action Item: WG members: Express interest to Thomas in those groups.

Community Webinar between today – OCX (22.10 - 24.10)?

Jointly agreed: There are enough topics (Community Manager, demos of new features in Eclipse 2024-09, ...), so having a webinar would be a good idea. Demoing light theme preview could also give us additional feedback.

General ideas for future webinars: Collect potential topics in a backlog.

Action Item: Thomas will prepare a page (e.g. Gitlab issue)

AOB:

Martin: Initiative 31: Any concrete follow-up on SWT on top of OpenGL (dev effort possible?)

Heiko: No update yet.

Jointly agreed: Have a general review of different evaluations of the last three months and decide on the next steps. Deferred to next steering meeting.

TODO: Manoj: VS Code / certification from EF?

We will have a subsequent follow up for this topic.
