Notes:

Thomas discussing with some new members. One strong lead on SWT.

Initiative 31 meeting setup for interested parties. Presentation was held for Initiative 31 and there were over 60 people. Call to action and a follow up meeting were held.

Eclipse IDE WG BOF - more people than expected. 65 people. Split into 3 groups.
Pizza and drinks were good.

Good messages from the room. Strong support from some Eclipse platform committers.

In the future we should plan for more people.

Martin:
We need to continue to show improvements.
We cannot say the same story every time.
We need to execute on the plan - push forwards visible progress.

Thomas: Some updates coming on the Java side. 2 opportunities to join Java conferences in the coming year. Ideally an Eclipse branded booth and concrete news/presentations.

Discussion on students and becoming committers. Perhaps invite them to community calls to show their contributions.

Program Plan review:

We have a consensus to use the Program Plan as initial input to the EF budget process and tune/refine the Plan after this.

Thomas to make some changes at a later date.
