Important dates and events

1 - Team Introduction

Introduce team members and roles

2- Working Group Structure

Working group organizational Breakdown and pillars

3 - Communication Channels

Preferred methods for communication

Streamlining contributor experience

1. Organising the work in an easy-to-follow way.

2. Using widely adopted tools and reducing the friction of first contributions.

ORC Working Group pillars

Awareness, Education and Thought Leadership

Close the knowledge gap and demonstrate ORC WG as the reference source of information in all the subjects related to regulatory compliance and open source worldwide

Technical Development

Develop the technical assets that will be shared with the Standardization bodies to support the Open Source Community in the process of be compliant with the existing and emerging regulation.

Institutional Engagement

Strengthen the cooperation and relationship with the public administrations and regulatory bodies to build a bidirectional communication enabling a continuous exchange.

ORC Community representation

Build legitimacy through broad stakeholder representation, growing ORC WG membership base.

Deliverable plan

The ORC WG has created a [deliverable plan](#) that covers the needs of the open source community.

Various *categories* of deliverables:

- **Reports** to support guidance
- **Specifications** focused on standardization and CRA requirements.

Additionally, we are supporting the broader open source community with other activities like surveys or collecting feedback to be submitted to the European Commission.

	Deliverable name	Owner	First draft due	Final draft due
1. Documentation				
	1.1 CRA FAQ	FAQ Task Force	April 2025	June 2025
	1.2 Inventory	Inventory Task Force	April 2025	June 2025
2. Inputs & contributions				
	 2.1 Input to draft implementing act on product categories	Cyber Resilience SIG	March 18, 2025	April 18, 2025
	 2.2 Contribution to Vulnerability Handling Standard Clause 4.4	Cyber Resilience SIG	May 13, 2025	May 21, 2025
	 2.3 Contribution to open source EU Guidance on open source hardware	Open Source Hardware Task Force	May 30, 2025	June 16, 2025
	 2.4 Contribution to Vulnerability Handling Standard Annex G	Vulnerability Handling Task Force	June 30, 2025	
	 2.5 Comments on CEN/CENELEC PT 1 Standard	CEN/CENELEC WG 9 PT 1 liaisons	June 12, 2025	June 12, 2025
	 2.6 Feedback on Cybersecurity Act (CSA) Revision	Cyber Resilience SIG	June 14, 2025	June 20, 2025
	 2.7 Comments to EU Guidance on open source	CRA Expert Group liaisons	June 18, 2025	June 20, 2025
	 2.8 Response to the Call for evidence on the revision of the Standardisation Regulation 1025	Cyber Resilience SIG	July 5, 2025	July 21, 2025
3. White papers				
	3.1 White paper on SBOMs	Dedicated task force	April 2025	June 2025
	3.2 White paper on due diligence obligation of manufacturers	Dedicated task force		
	3.3 White paper on Attestations	Dedicated task force		
	3.4 White paper on types of open source projects	Cyber Resilience SIG		
	3.5 [White paper Open Source Software Stewards and CRA][open source stewards cra]	Vulnerability Handling Task Force		
4. Specifications				
	4.1 Vulnerability management specification	Cyber Resilience Practices Project	March 2025	
	4.2 Specification on principles for cyber resilience for open source development	Cyber Resilience Practices Project		
	4.3 Specification on generic security requirements for open source components	Cyber Resilience Practices Project		
	4.4 Security policy for open source software stewards	Cyber Resilience Practices Project

Communication Channels

Mailing List

- Join with your Eclipse Foundation Account.
- Official communication channel.

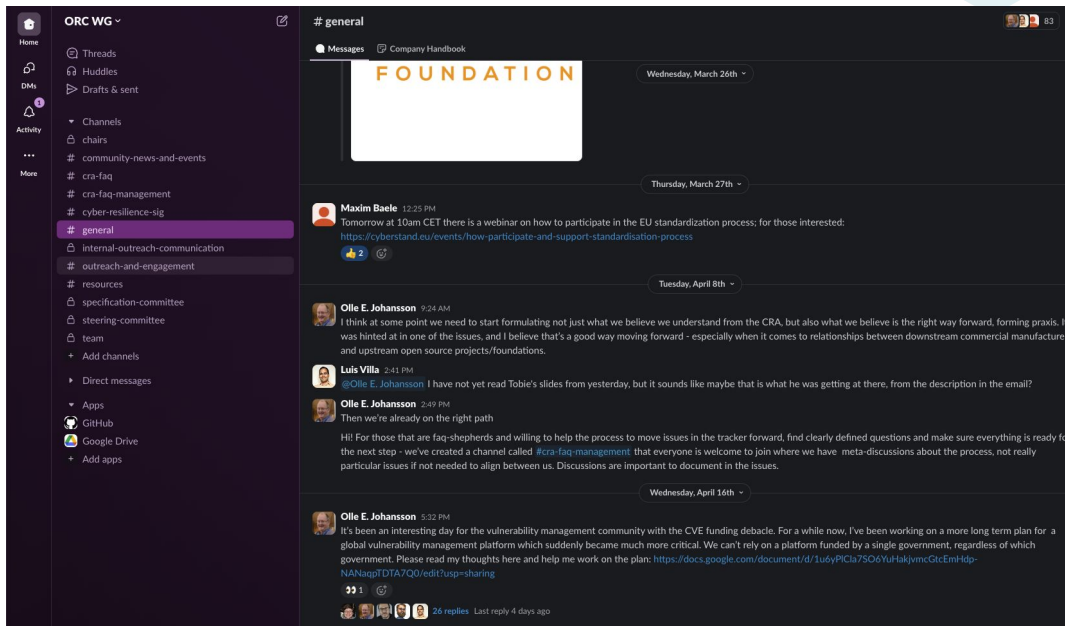

The screenshot displays the Eclipse Foundation website's mailing list page. At the top, the Eclipse Foundation logo is on the left, and navigation links for 'Projects', 'Supporters', 'Collaborations', 'Resources', and 'The Foundation' are on the right. A 'Download' button is also present. Below the navigation, there are links for 'My Profile' and 'Eclipse Contributor Agreement'. A search bar is located on the right side of the page. The main content area shows the breadcrumb 'Home > Eclipse Mailing Lists > Mailing List: open-regulatory-compliance (229 subscribers)'. A green notification box states 'You are currently subscribed to the open-regulatory-compliance mailing list.' The main heading is 'Mailing List: open-regulatory-compliance (229 subscribers)'. Below this, there are links for 'Open Regulatory Compliance Working Group', 'About open-regulatory-compliance', and 'Using open-regulatory-compliance'. A paragraph explains how to post a message to the list members, mentioning the email address 'open-regulatory-compliance@eclipse.org' and providing links to the 'open-regulatory-compliance Archives' and the list's 'RSS feed'. A 'Subscribing open-regulatory-compliance' section follows, with a note that contributions are governed by the 'Terms Of Use' and 'Privacy Policy'. At the bottom, there is a red button labeled 'Unsubscribe from open-regulatory-compliance'.

Our GitHub

ORC WG GitHub

The place where work is happening.

Let me walk you through.

The screenshot shows the GitHub repository page for the Open Regulatory Compliance Working Group (ORC WG). The repository is public and has 37 followers. The main content area features a README file with the following text:

Open Regulatory Compliance
Leading Regulatory Compliance for Open Source

Welcome to the ORC GitHub organization – ORC is an Eclipse Foundation Working Group whose immediate focus is to help open source maintainers and users meet the compliance requirements of the European Cyber Resilience Act (CRA).

The Cyber Resilience Act

The ORC WG main focus today is on supporting the open source community in developing assets that helps implement the CRA requirements. This has been translated into specific work streams as follows:

- [CRA FAQs](#)- Either you are newble to the CRA, or a pro already working on its implementation, the CRA FAQ is a space for the open source community to ask questions and clarify key CRA topics.
- [ORC Deliverables Plan](#) - The ORC community has outlined key deliverables to work on in 2025.
- [Inventory](#) - Inventory of resources relevant to the horizontal CRA standards, Open Source Steward obligations, and the security attestation program.
- [CRA Hub](#) - Want an overview of our CRA-related work? This is the place to do it.

How to contribute

- [Join our calls](#). Our meetings are public and open to all. ([Call format](#))
- [Subscribe to our mailing List](#) ([Archive](#))
- [Join our Slack channel](#) ([Request Invitation](#))

Some key ongoing activities in which you can engage with us:

I'm a developer/maintainer in an open source project

- Here you have a few pointers that can help you in your work towards compliance:
 - [CRA FAQs for maintainers](#)
 - [CRA FAQs open conversations for maintainers](#)
 - [Vulnerability handling specification](#) - we'd like to have you contributing to this specification. **This is the first obligation under the CRA.**

Share Your News

- **Follow and engage with us on social media**
 - [LinkedIn](#)
 - [Mastodon](#)
 - [Bluesky](#)
- **Submit your news & events**
 - Anyone with an Eclipse account can submit news, blogs, press releases, and events (conferences, webinars, etc.) through our newsroom: newsroom.eclipse.org
 - We will share these submissions through our social media channels and our newsletters, when appropriate.

We will amplify your message!

Promote Your Work

- **Showcase your projects and contributions by hosting a webinar**
 - Propose a talk for our [CRA Mondays](#) or [Unpack the CRA](#)
- **Submit ORC or CRA-related talks to CFPs**
 - Let us know about accepted talks and we will promote on social channels
 - Contact news@eclipse.org
- **Let us know about newsworthy project milestones**
 - Let us know 4-6 weeks in advance of a newsworthy project milestone, so we can draft an announcement, pitch to media, and/or schedule joint briefings (Project Lead and Foundation spokesperson)
 - Contact pr@eclipse-foundation.org

**We will help bring awareness, contributors,
and adopters to ORC projects!**

Collaborate on Content

- **Work with us to announce your membership**
 - Share a list of your company's spokespeople with us, so we can route press inquiries to the right people quickly
 - Let us know about your content related to the ORC, so we can help with a trade publication placement, pitch to the press, and/or do joint briefings
 - Give us a heads up about media/analyst briefings and, if appropriate, we can participate in your briefings
 - **Contact pr@eclipse-foundation.org**
- **Share your success stories and participate in our member case study program**
 - All Eclipse Foundation members are welcome to participate in our [member case study initiative](#).
 - This program features real-world use cases of the impact of Eclipse Foundation projects, processes, and governance on our members, their customers, and industry stakeholders.
 - **Contact marketing@eclipse.org with any questions**

We will work together to create impactful content and engage the media!
