openPASS Steering Committee

Meeting date: 30th July 2020
Location: MS Teams
Keeper of the minutes: Tuan Duong Quang, TÜV SÜD
Participants:

Name	Company	Participation
Arun Das	BMW Group	X
Manel Hammouda	BMW Group	X
Thomas Platzer	BMW Group	X
Paul Buck	Eclipse Foundation	
Fabian Gottwald	EDAG on behalf of VWGoA	
René Paris	intech on behalf of BMW	
Reinhard Biegel	intech on behalf of BMW	
Dr. Dmitri Fix	ITK Engineering GmbH	
Jan Dobberstein	Mercedes Benz AG on behalf of Daimler TSS	X
Per Lewerenz	Mercedes Benz AG on behalf of Daimler TSS	
Mark Gielow	Mercedes Benz AG on behalf of Daimler TSS	
Dr. Daniel Schmidt	Robert Bosch GmbH	X
Jorge Lorente Mallada	Toyota Motor Europe NV/SA	X
Tuan Duong Quang	TÜV SÜD Auto Service GmbH	X
Alexander Eliseev	TÜV SÜD Auto Service GmbH	
Maximilian Kraus	TÜV SÜD Auto Service GmbH	
Dr. Stefan Schoenawa	VW AG on behalf of VW GoA	
Gwendal Lucas	VW AG on behalf of BW GoA	
Jason Gainey	VWGoA	

Topics:

Plan repository management/ Dealing with additional feature branches

Currently the ITK branch contains a mix of old (v0.6 content, incompatible GUI, …) and new (collision calculation, csv export, …) features. To resolve the issue a new parallel branch will be created which will contain the current content of the ITK branch. The new branch will be named Osccar (still in discussion). The new branch will be temporarily, bug fixes can be done without modifying other branches, the cmake build system will be on the branch and it will not have more functionalities than the master. It is in discussion that Uwe Woessner will be the responsible person of the new Osccar branch. For now, the openPASS WG has no rights to delete any branches but with the migration to GitLab there should be a possibility to delete the branch. There is no automated commit to v0.7 without any agreement in the SC.

Once the migration to GitLab happens the openPASS WG will discuss about the further proceeding of the branch Osccar.

The SC agrees to introduce an Osccar branch. The decision of the SC can be found here.

New reduced GUI will be committed on top of 0.7.

Updates EclipseCon

As a product manager Tuan will hold the talk at the EclipseCon. The talk should give a glance at the simulation platform openPASS. Thus, the standard slides are being used. The Community Day is free of charge. Everyone is welcome to join the community day.

Cooperation with OpenADx

There will be discussions with openADx about a possible collaboration. The objective is to connect different simulation tools and simulation-middleware together to obtain a Co-simulation with elements from Sumo, PreScan, OpenMCX and eventually openPASS.

The discussions have just started recently and openPASS will participate at the next meeting.

The SC suggests building up the project on a real-world use case. In general, the SC appreciates those discussions.

Updates will follow in the next SC-meeting.

Miscellaneous

Meeting minutes can be found here: https://wiki.eclipse.org/openPASS-WG
