MINUTES

Minutes of May 21st, 2021

- Resolved, the Steering Committee approved the May 21st, 2021, Minutes

Election Notice (Participant Member Seats X2)

- Nomination of Christoph and Philippe remained

Tangle EE Members Engagement

- Idea to do 1 on 1s with Team members with regards to engagements and their motivation
- Based on that: Discuss what are ways that would promote engagement

Projects and Initiatives

In general

- Some projects may now take a longer time frame due to change in political decision making from governments
- Observation that Europe is leaving room for blockchain Innovation, gradually paving the way for infrastructure which can highly benefit from blockchain technology

Update energy initiative

- Energy seems to be a promising initiative to focus on
- Estimated time frame: Start could be aimed at Q3 / Q4
- Idea of developing a device for extending the access to energy. Ideally this device needs to be able to interface with the tangle, and for this a library allowing secure exchange needs to be developed I
- Idea to contact a partner which could provide a suitable module

Next step: Discuss with parties what exactly shall be the goal and outcome and see how other Tangle EE Members can get involved.

GAIA-X updates

- Multiple Gaia-X initiatives underway
- IOTA main involvement is in Mobility Initiatives
