Project Archival Review
[Date]*

Wayne Beaton, Eclipse Foundation, Evangelist

Expectations of an Eclipse Project

- Operational Expectations
 - Develop reusable assets
 - Develop in an open, transparent and permeable way
 - Follow the Eclipse development process
- Community Expectations
 - Grow a community of developers to maintain and enlarge the assets
 - Promote the assets such that an ecosystem of users develops
- Managerial Expectations
 - Accept exclusive responsibility for the area of the project charter
 - Relinquish that exclusivity when the above expectations are not met

Health of the Community

- Newsgroup
 - No activity for more than 2 years
- Mailing list
 - No project-related activity
- CVS
 - 5 commits in the last year, all from Dwight Deugo
- Active Committers
 - 3 total committers
 - Only one active committer for more than 2 years
- Downloads
 - The downloads are not configured in a way that we can track
- Blogosphere
 - Two recent posts; both are pointers to the project
