

Geospatial IWG Update

Standards body
Broad support, **435**
Members

Open Source Geospatial Foundation Founded 2006
1K committers, 15M Lines of code
Board fired executive director in Oct., no staff left
Principle sponsor (Autodesk) pulled support
12 remaining sponsors (\$50K)

OSGeo governance issues triggering organizations involved with OSGeo to look elsewhere & specifically at Eclipse.

This is a NEW IWG focusing on Geospatial and BIM technologies.

Eclipse Foundation opportunities:

- 1) Synergy between Geospatial/BIM and existing Eclipse technology
- 2) New members – potentially a very large number
- 3) New projects
